NOTE:

- Print MULTIPLE copies of this and only cut AROUND the table. The dotted lines are for the students to cut that part themselves and give the other copy to their partner.
- Put the cut out scenario cards in an envelope and the students get to pick one at random.
- For Scenario #7, I originally used "come over" but the teacher didn't want to use it because they don't learn that in the textbook. However, if you can explain what it means to the class what it means, you can definitely use it or change it to something else.
