

Motion:
School lunches are better than boxed lunches.

Negative Constructive Speech

否定側立論スピーチ

We strongly disagree that school lunches are better than boxed lunches, from the point of view of “allergy” and “cost”.

First, “allergy”. There are many students who have different food allergies, and they may not be able to eat certain foods that the school will serve. For example, milk is always served with school lunch but there are students who have dairy allergy and could not drink it.

Second, “cost”. It can be expensive for families to buy a solo meal like the school lunch for each child, especially if they have many children. So, it is cheaper for parents to buy food in bulk at the supermarket and divide it among the family’s boxed lunches. That’s all.

Questions from the Affirmative

肯定側からの質疑応答

Think of yourself as the affirmative side. What question would you ask about the negative constructive speech? Let’s think of two questions.

1) _____

2) _____

名前： _____

Group # _____

Class _____
